Artist's Pigmented Drawing Inks

Vibrant, lightfast color with a smooth flow that artists, illustrators, and calligraphers can rely on. Each pigment is finely milled for exceptional coverage and precision, whether used with brushes, dip pens, or airbrushes. The waterproof formula dries to a bold, permanent finish, resisting fading over time for lasting brilliance in your work. Mix, layer, or dilute for endless creative effects on paper, board, and other porous surfaces. Higgins combines time-honored craftsmanship with modern performance, making our inks a trusted choice for artists and illustrators.

Non-toxic, Conforms to ASTM D-4236
Made in the USA.

Documental Inks

Higgins' Documental Inks are crafted in small batches for elegant lettering and artistic flourishes. These water-based formulas contain black pigment for dense color and shellac for water resistance. They should not be used with technical or fountain pens. Various formulations offer unique characteristics for use with calligraphy, brush, and dip pens on paper or board.

Non-toxic, Conforms to ASTM D-4236
Made in the USA.

Acrylic Artist's Inks

Made for mixing, our pigment selections ensure the widest range of combinations for the broadest artist's palette. These inks are brilliant, lightfast, and compatible with all other acrylic painting media, such as gels and texturizing mediums, yet are extremely fluid. Five metallic colors offer highly opaque coverage when layered. Use with brushes, dip pens, glass pens, and airbrushes. Not compatible with fountain or technical pens. Each bottle contains agitators. Shake well before use.

Non-toxic, Conforms to ASTM D-4236
Made in the USA.
